- Get decent grades, like high 80's
- Graduated
- Get a large art project done (not yet planned)
- be creative
- be meddoo

Hopes and Dreams for 2013-2014

Directions: Make a list, write a paragraph, draw a picture or cartoon, make a comic strip, or find another creative way to share some of your hope and dreams for this school this. (Be sure to include your name on your final product.)

Breann Walker

I hope that this school can be a drama free, academic built school. This is my senior year and I think that this school needs to make sure academics come first. Good grades, better lunches, and more teacher help will be good.

Hopes and Dreams for 2013-2014

Directions: Make a list, write a paragraph, draw a picture or cartoon, make a comic strip, or find another creative way to share some of your hope and dreams for this school this. (Be sure to include your name on your final product.)

Some hopes and dreams I have this year is to continue to get good grades throughout this year. I understand that this year I am taking a couple harder classes (Chemistry and Trigonometry) and these courses will push me even harder to achieve my goal. I would also like to be in the Student of Distinction every marking period. This would motivate me to be at school almost everyday and to get 85 or higher in every course.

One thing that would benefit the students and the teachers is letting students have their cell phones out during lunch. It may not seem like a good idea to adults but honestly, it would help students. We have to sit in class and do work all day, being able to have your phone out to listen to music or get on facebook or anything releases stress so then when we go back to class were not so irritable and cranky. It would definitely make us much more focused and happier! Plus you would get less complaints from everyone.

I would love to be allowed to use our phones (and other electronics) during at least lunch considering it is our free time.

I would also like to not have to do other work in CCR. Also I don't think it's necessary to have so many teachers per CCR. I understand they're here to help but we don't really need 5 teachers. I wish it were more like a normal study hall.
