

“Making Newfield Greater”

Newfield Central Schools is an amazing district to be a part of. Students love the fact that they know and are known by their teachers. Attend any sports game, musical event, or theatrical production, and you will see a large cross section of the community there to show support and enjoy the talent of our youth. Stop by during or after hours, and you will see a lively interchange among students, staff, families and the community. All of these things contribute to making Newfield great!

Over the summer several high school faculty and staff met to discuss our strengths and identify where we can stand to improve. We have decided that our overall goal is to increase responsibility for our work and actions - students, staff, families, and community - and so we have titled our focus as such. We have further organized the areas of responsibility into four groups: mutually respectful and safe behavior, aesthetics, motivation, and service projects. We recognize that our school is already doing great things in all of these areas, but our dream is to be even better.

As we discuss where we are as a school community and where we would like to go, we recognize that the staff can't be the only ones with ideas, so in the near future we hope to involve students, families, and the community in making Newfield greater. We are currently working on a framework for the four groups to celebrate our strengths and to reach even greater heights. If you have a passion about any of the four areas watch for more information in the coming months. Once we have the framework set, we will be looking for your ideas and participation. Thank you for all you already do, and we look forward to making Newfield greater with you!
